EDUCATION

Sharda University , Greater Noida (Uttar Pradesh)
Bachelor of Technology in Computer Science & Engineering

2024-2028
CGPA: 8.3

WORK EXPERIENCE

Frontend Developer – CR IT Solutions and Service PVT.LTD

May. 2026 - July 2026

- Developed and enhanced frontend interfaces for an **event management platform**, focusing on usability, responsiveness, and user engagement.
- Redesigned UI components and layouts to provide a **responsive and consistent experience** across different screen sizes.
- Created and refined **About Us and Contact sections** with structured content and user-focused layouts to improve information accessibility.
- Implemented frontend modifications based on project requirements, contributing to a **more polished and user-friendly web application**.

TECHNICAL PROJECTS

Codebase Onbroadener

July 2026-Present

- Built backend services for an AI-powered GitHub repository analysis platform that converts complex codebases into structured, developer-friendly insights.
- Designed REST APIs to process repository data and deliver project summaries, technology-stack detection, folder-structure analysis, and important-file insights.
- Integrated GitHub repository processing with AI services to extract and organize meaningful information from large codebases.
- Implemented backend data handling and MongoDB integration for managing repository analysis results and application data.

Local Worker Service Platform

Feb 2026-April 2026

- Developed a responsive React-based service marketplace connecting users with local service providers.
- Built and refined user-facing interfaces, navigation, and service discovery flows to improve usability and accessibility.
- Integrated frontend components with REST APIs for dynamic service and user data, ensuring a seamless application experience.
